

SUPPLEMENT TO CAREBRIDGE EXHIBIT

Service Description for Web Access Control

Revised 10/8/2009 © McKesson Technologies Inc.

This Supplement will be strictly governed by the CareBridge Exhibit between McKesson and Customer.

1. **Service.** In conjunction with the Internet Gateway Service (“IGS”), CareBridge will control access to the Internet according to a list of authorized users. Customers allowed users will be supplied with a user name and password that will be required to access the internet. If a user fails to successfully authenticate the IGS firewall will deny that user access to the Internet.

2. **Additional Responsibilities of McKesson.**

2.1 McKesson will configure and manage the IGS systems to provide web access control in accordance with the list of allowed users supplied to McKesson by customer.

3. **Additional Responsibilities of Customer.**

3.1 Customer will provide McKesson with a list of names of users which Customer desires to allow access to the internet.

3.2 Customer is required to maintain a list of users that are authorized to have access to the Internet and Customer is required to notify McKesson any time any changes are required to the Customer list of authorized users.

3.3 There shall be no additional fees charged to change, add, or delete Internet user access.

4. **Warranties and Disclaimers.**

4.1 McKesson does not warrant (i) the use of the service will be uninterrupted or error-free, or (ii) the database contains every foreseeable site that should potentially be blocked and/or that every site contained in the database is appropriately categorized.
